Dan,

I'd like to sincerely express my greatfullness and thank you for all the help and manpower you provided from DPW over the past several days and evenings in separating all the hay bails which caught fire on Sunday and continued to burn and smolder for several days. Although it clearly should have been the property owners responsibility, when the fire dept called for your assistance you never hesitated to provide the help needed in order to make our job easier. It goes without saying the team efforts the town of Middlebury departments working together are a great asset to the taxpayers. Again thank you for all your assistance.

Sincerely,

Tony Bruno
Fire Chief
